#### L.H.W. AUTHORIZATION, ASSIGNMENT & RELEASE FORM AUTHORIZATION AND ASSIGNMENT

In consideration of your undertaking to care for me, I agree to the following:

- 1. You are authorized to release any information you deem appropriate concerning my physical condition to any insurance company, attorney, or adjuster in order to process any claim for reimbursement of charges you incurred.
- 2. I authorize the direct payment to you of any sum I now or hereafter owe you, by my attorney out of the proceeds of any settlement of my case, and/or by any insurance company obligated to make payment to me or you, based in whole or in part upon the charges made for your services.
- 3. In the event any insurance company obligated, by contractual agreement, to make payment to me or to you for the charges made for your services, refuses to make such payment upon demand by you. I herby assign and transfer to you the cause of action that exists in my favor against any such company (the name(s) of which is believed to be correctly set forth under pertinent date) and authorize you to prosecute and take action in my name as you see fit and further authorize you to compromise, settle or otherwise receive and claim as you see fit. However, it is understood that until a reasonable effort has been made to collect the sums due from the insurance company or companies contractually obligated, you will refrain from collecting the amounts owed directly from me. ## **Informed Consent to Care**

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as "informed consent" and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains, and sprains. With respect to strokes, there is a rare but serious condition known as an "arterial dissection" that typically is caused by a tear in the inner layer of the artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. The best available scientific evidence supports the understanding that chiropractic adjustment does not cause a dissection in a normal, healthy artery. Disease processes, genetic disorders, medications, and vessel abnormalities may cause an artery to be more susceptible to dissection. Strokes caused by arterial dissections have been associated with over 72 everyday activities such as sneezing, driving, and playing tennis.

Arterial dissections occur in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately a percentage of these patients will experience a stroke.

The reported association between chiropractic visits and stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. For comparison, the incidence of hospital admission attributed to aspirin use from major GI events of the entire (upper and lower) GI tract was 1219 events/ per one million persons/year and risk of death has been estimated as 104 per one million users.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.

## L.H.W. OFFICE FINANCIAL POLICY

#### **CASH**

- 1. All patients are on a cash basis until their respective insurance coverage and deductible may be verified by our staff.
- 2. This office may make payment plan arrangements on an individual basis. Any such plan or arrangement will be discussed during your report of findings.

#### **INSURANCE**

- 1. If you have insurance, we will gladly accept assignment with the following exceptions and regulations, provided we have prior certification from your insurance company.
- 2. We accept assignment for the initial treatment plan only. Any follow-up visits will be payable when services are rendered. Once you have been discharged from active care and placed on maintenance care, we will continue to file your insurance but require full payment per visit.
- 3. We accept assignment as a courtesy to you; you are responsible for your entire bill should your insurance company not pay any of the anticipated charges for any reason. We are not a mediator between you and your insurance company and will not enter into any dispute with the same, as your contract is between you and your insurance company.
- 4. Whenever you receive any worksheets from your insurance company or explanation of benefits, please bring this information into this office as soon as possible. We must have a copy of this to determine whether proper payment has been made. If you should receive a check from your insurance company during our billing, you must bring it into the office upon receipt. If any over-payment exists after all insurance billing has been done, we will issue you an overpayment check it will not come from your insurance company. All insurance payments, regardless of which company issues a check first, are applied to your account as long as any balance is due.
- 5. Any services not covered or coverage reductions by your insurance will be the patient's responsibility.
- 6. This office will resubmit a claim ONE TIME. We will not enter into any dispute with your insurance company. If coverage problems arise, you will be expected to assist directly in dealing with your insurance company, adjuster, or agent. Any denied or disputed claims will be treated as uncovered services and you will be expected to pay such charges on a timely basis.
- 7. If the patient is referred to another specialist or discontinues care for any reason other than discharge by the doctor, the bill is due and payment in full expected immediately; regardless of any claims submitted.
- 8. If you have questions concerning this or any other matter, please speak with the receptionist or our insurance department prior to seeing the Doctor.

Thank you.

I have read and understand the Financial Office Policy and agree to abide by these terms.
